

# A window into our boarders' life!

*to learn about and put into action now at a young age. Independence is a huge part of our everyday life in the Boarding House, we are all improving and evolving as independent individuals on a daily basis.*

## Our 4th MYP Students

*Kyrill Vasilyev, from Russia, who has been with us for 2 years and is currently in 3rd MYP.*

*Masih Ghadbeygi, from Iran is currently in 4th MYP.*

### *School life:*

*The International students are keen to learn Spanish and get used to listening to Spanish everyday. We can see in the first 2 months our level has improved and will continue. Students from 4th of MYP had a meeting with the Headmaster and MYP and Diploma Coordinators. Students talked about choosing their subjects on the Diploma and getting advice from Coordinators about Mocks preparation exams and grades they should achieve in the Diploma course to get into a good university. In conclusion it was very useful!*

### *Boarding House Life:*

*Living in the boarding residence, students get to know other cultures and consider different points of view. Every night students meet in the living room to share their feelings and opinions of the day and have chats on different topics. On the weekends we meet up to share each other's company and perhaps watch films and documentaries.*

*To celebrate International Halloween day students dressed up in Halloween costumes. All the costumes were special themselves. At the end of the evening, we selected the most creative and suitable fancy dress.*

*We have a busy timetable but it is not overwhelming, because the positive point is that it is focused on personal revision.*

*The Halloween party was really great. Last weekend was one of the best ones because we went kart racing and we had many different activities.*
