

# *A window into our boarders' life!*

## *Our 2nd Diploma Students:*

Maryana Yarshova, from Bielorrusia,  
who has been with us for 5 years.

Katrin Septanova, from Bulgaria,  
who has been with us for 3 years

*MOCKs are exams that 2nd of Diploma students have to take in the middle of the year in order to truly understand how ready they are to face the real exams in May. This exam-like experience has given us an experience of IB requirements and restrictions, as well as allowed us to see what of the topic should be revised more, what areas should be practiced and what subjects should we focus on the most.*

*After the MOCKs are done, we will receive our grades on the 8th of February. Certain Universities require these grades as part of our academic achievement throughout the last year of high school. This is why these exams were very important for us.*
